

Dear Parent/Carer,

We have been working hard at St Thomas More to develop relevant and engaging schemes of learning for KS4 Design & Technology. We are passionate about students creating final outcomes they are proud to take home. For us to do this, we are asking for a £12 contribution towards materials that your child will use whilst they are in Y10.

Your contribution would allow us to offer a broader, hands-on and relevant practical curriculum in D&T. Having the extra funds would allow us to:

- Purchase the most suitable materials for products
- Develop the range of materials and processes students are able to access
- Improve our CAD/CAM (computer aided design and manufacture) facility in order for students to have hands on access to processes in the design world

The contribution will cover **all** material and model making costs throughout Y10 D&T.

We are passionate about our developing curriculum and would really appreciate your support.

Contributions can be made via ParentPay.

If you have any questions, please contact me at hjohnson@stm.srscmat.co.uk

Thank you,

Mrs H. Johnson

Head of Technology

St. Thomas More Catholic Voluntary Academy
